Experience

Pattern analysing and password predictions @ SecurityEscape

September 2018 - March 2020

Worked with application security engineering team to develop a system to use password prediction on common open dev panels. My role was to write analyser to generate patterns out of known breaches.

Education

Computer Science in Game Developement, JNAFAU India

2016 - 2020

High School, Kendriya Vidyalaya

2014 - 2015
